

Download and Installation Guide For MiKTeX 2.9 and Texmaker

This document provides detailed instructions on downloading and installing MiKTeX and Texmaker, the two recommended software packages needed to create LaTeX documents. Using a high-speed Internet connection is recommended, as the installations files are large.

Part 1: Download and Install MiKTeX 2.9

1. Go to <http://www.miktex.org/2.9/setup> and click Download under “Installing a basic MiKTeX system.”

Installing a basic MiKTeX system

To install a basic MiKTeX system, download and run the "Basic MiKTeX" installer. MiKTeX has the ability to install missing packages automatically, i.e., this installer is suitable for computers connected to the Internet.

"Basic MiKTeX 2.9" Installer Size: 156.35 MB	Download from: <input type="text" value="mirrors.ibiblio.org (United States)"/>
-------------------------------------------------	------------------------------------------------------------------------------------

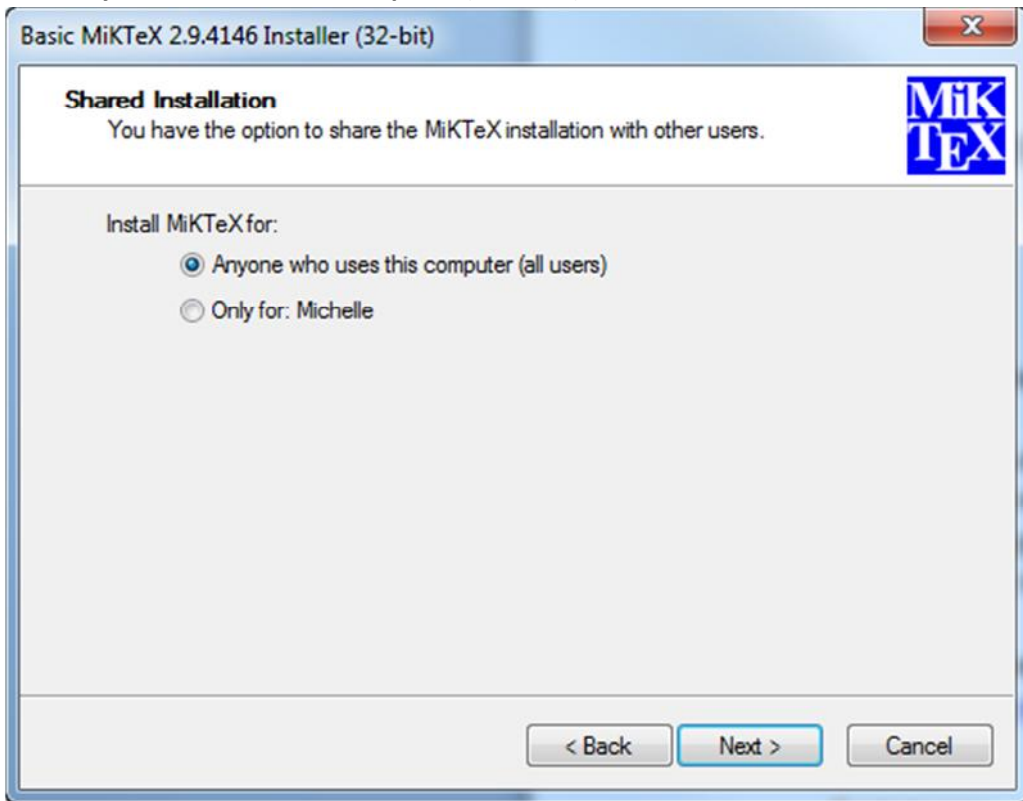

You can download from any of the mirrors in the list. The file is 156 MB, which is quite large, so it may take some time to download.

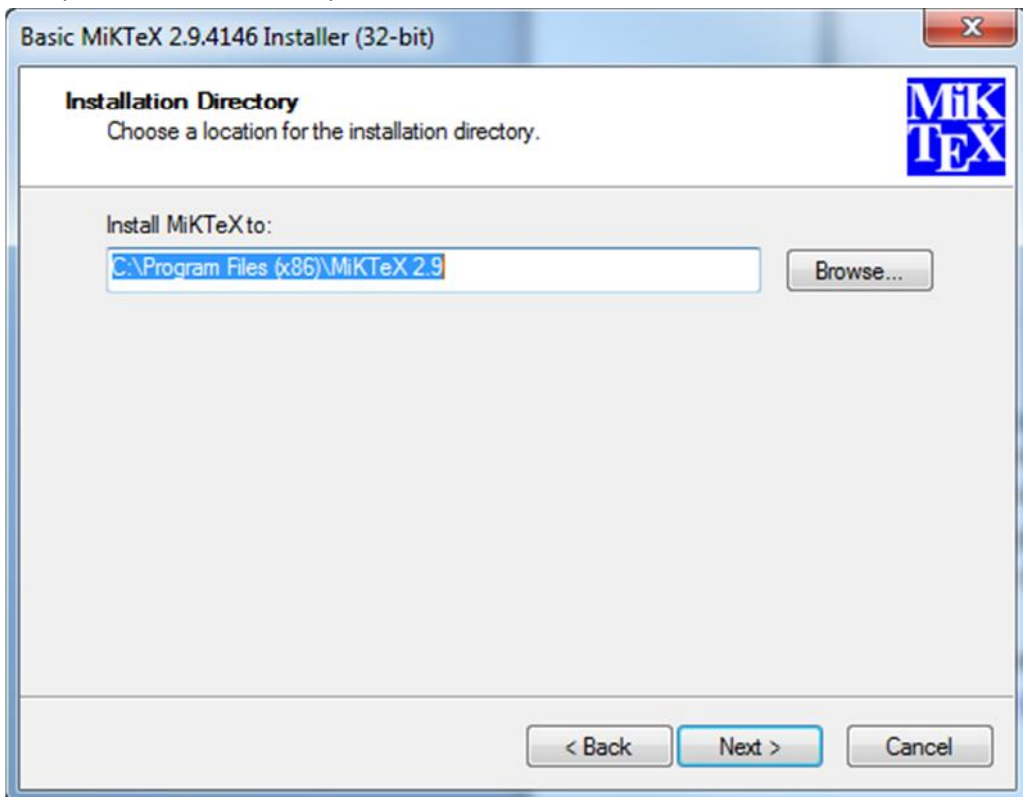

2. Choose “Save File” when the popup window opens.
3. Once the download is complete, double-click on the download file: **basic-miktex-2.9.4146.exe**.
4. Click on the box to accept the MiKTeX copying conditions. Then click **Next**.

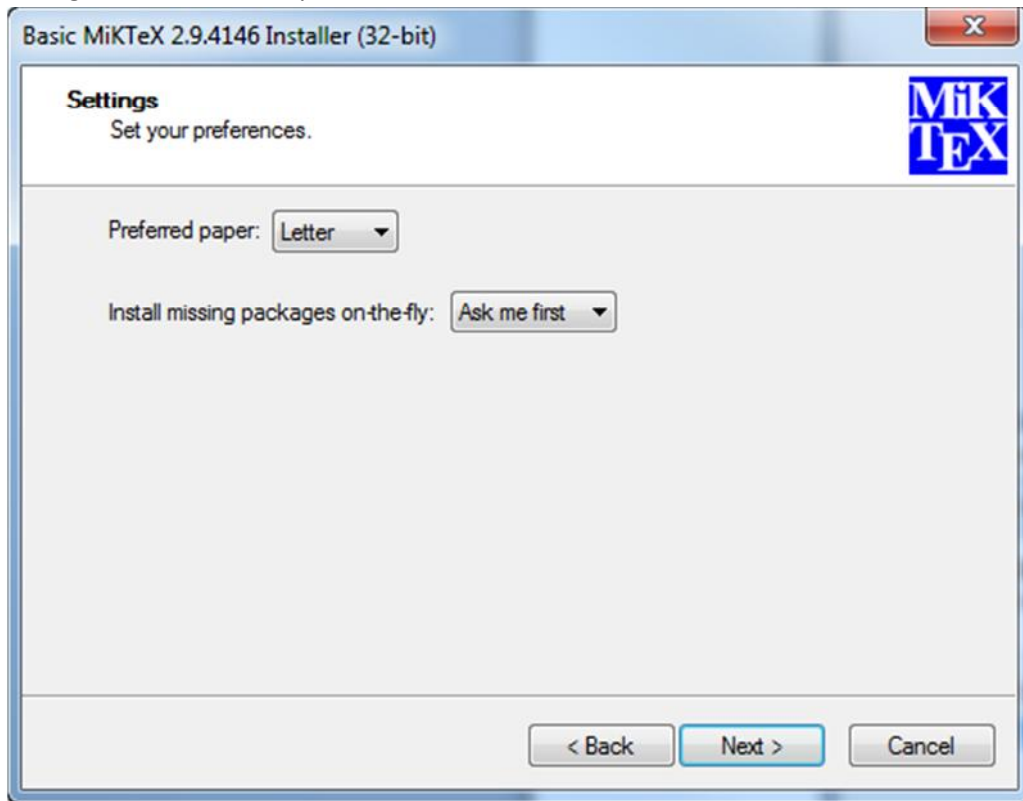

5. Click **Anyone who uses this computer (all users)**, then click **Next**.

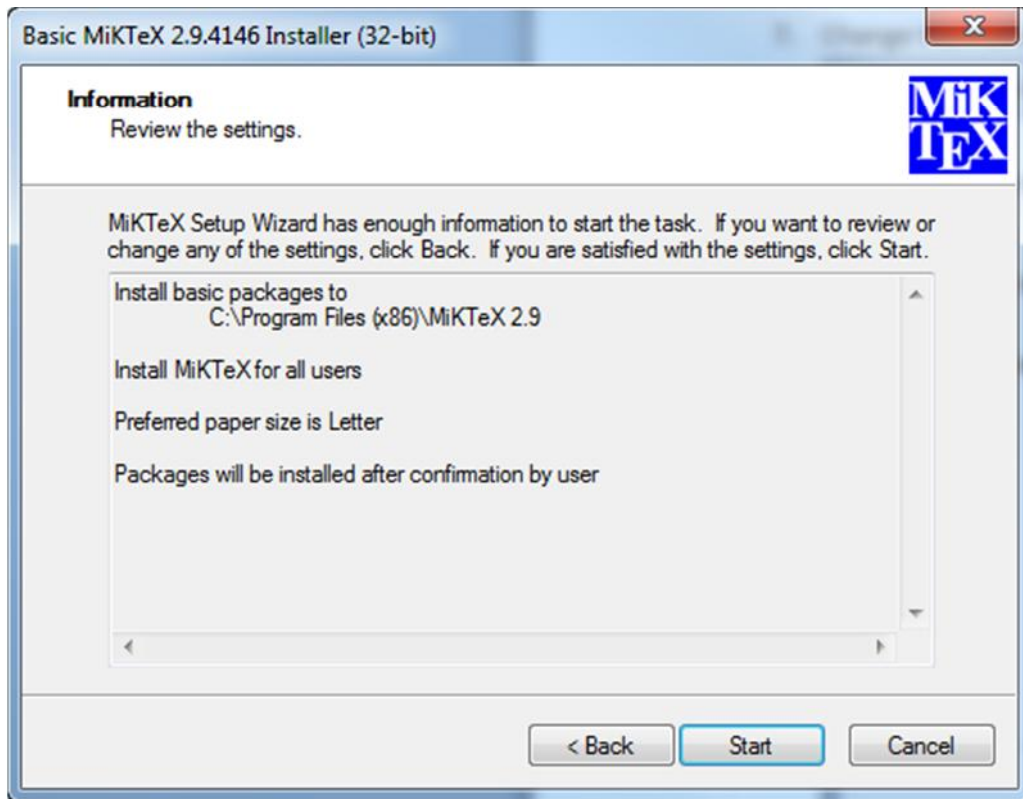

6. Accept the default directory, then click **Next**.

7. Change the Preferred Paper from **A4** to **Letter**. Then click **Next**.

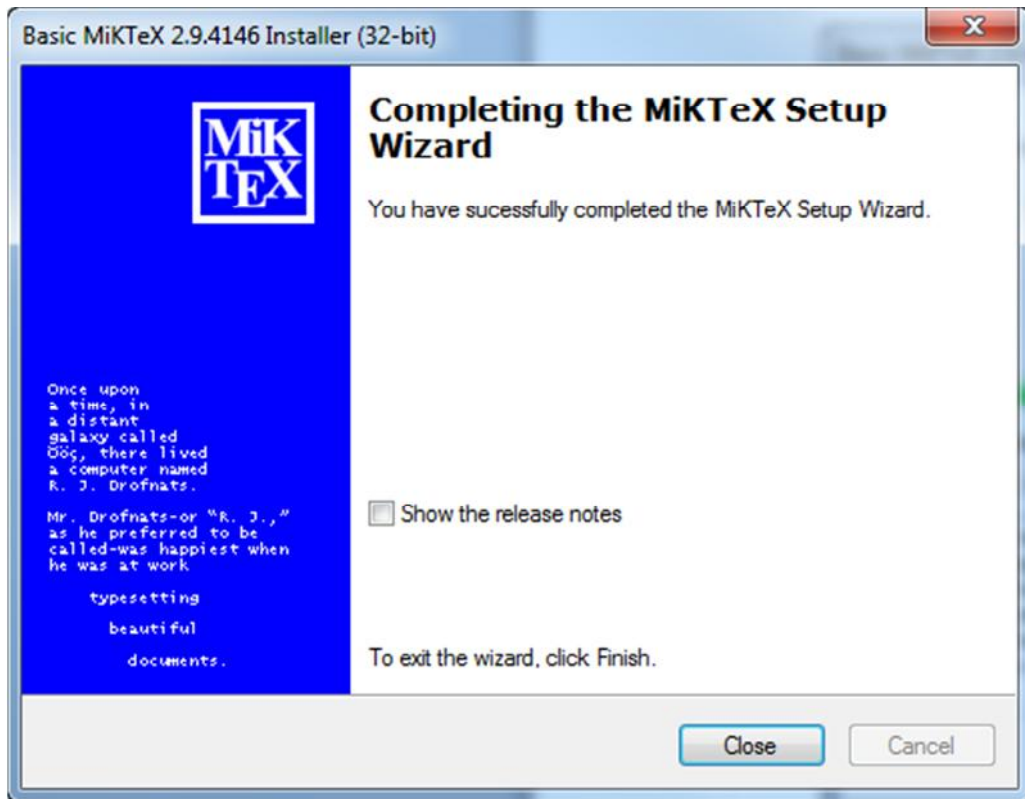

8. Click **Start** to begin the install process.

9. Click **Close** once the installation is complete.

Part 2: Download and Install Texmaker

1. Go to <http://www.xm1math.net/texmaker/> and click Download under the Navigation menu

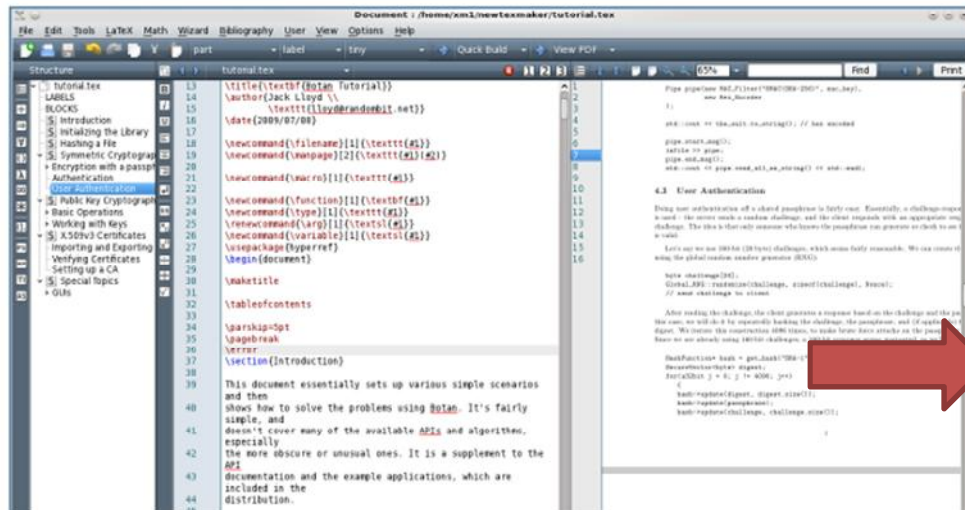

Summary

Texmaker is a free, modern and cross-platform LaTeX editor for linux, macosx and windows systems that integrates many tools needed to develop documents with LaTeX, in just one application.

Texmaker includes unicode support, spell checking, auto-completion, code folding and a built-in pdf viewer with synctex support and continuous view mode.

Texmaker is easy to use and to configure.

Texmaker is released under the GPL license .
